Electronic Patient Results

Turning off Paper Results Distribution

Fall 2019

ABOUT

- eDOCSNL is implementing a process to stop the paper distribution of electronically available reports.
- Patient results for select reports will no longer be mailed to eDOCSNL physicians as of **Dec 2, 2019**
- These results will only be received electronically through the Med Access EMR.
- Laboratory results will be changed first, followed by medical imaging and other clinical documents.
- The new process resulted from an agreement between the CEOs of the four Regional Health Authorities and at the request of and in consultation with the Newfoundland and Labrador Medical Association.

BENEFITS

Results are trackable

More efficient office management

Supports clinical decision-making

Reduces duplication

Increases patient safety

Reduces cost of maintaining paper files and shredding
