

Aftercare Following Immunization with Influenza Vaccine

Name: _____ MCP: _____

You have been given influenza vaccine today _____. There may be no side effects at all; however, some common side effects are listed below:

- Soreness, redness, or slight swelling at the site of injection.
- Fever, headache, muscle aches, decrease appetite or tiredness.

These side effects are usually mild and may last for up to 2 - 3 days after you receive the vaccine. If you have other side effects, or if those listed above worsen or last more than 3 days, you should seek medical attention.

PLEASE REMAIN IN THE CLINIC AREA FOR 15 MINUTES FOLLOWING IMMUNIZATION.
